

CUSTOMER INFORMATION BULLETIN

MityVac range of obstetric vacuum cups

Dear Customer,

We have been notified by Cooper Surgical Inc. that they will no longer supply the Mityvac range to Rocket Medical with effect from December 1st 2014.

Cooper Surgical Inc. have announced their wish to consolidate their distributor network and have appointed Aquilant Specialist Healthcare Services to take over supply of MityVac and other Cooper Surgical ranges.

Rocket Medical have distributed the MityVac range in the UK since 2006 and therefore this sudden notice of termination was received with some surprise. However, we will continue to supply our loyal customers whilst our existing stocks last.

In addition, Rocket are working in close collaboration with Aquilant to ensure that the transfer of supply is as seamless as possible and that our customers supplies of MityVac products are not interrupted.

Aquilant will be contacting customers directly in the near future to arrange transfer of orders, codes and supplies.

Codes affected:

- **R28134: Mityvac™ Hand Vacuum Pump:**
- **R57070-MUSH: M-Style™ Mushroom Cup with 4' Tubing & Filter**
- **R57070-SEL: M-Select™ Mushroom Cup with 4' Tubing & Filter**

IMPORTANT: This announcement only affects the 3 codes list above.

All other Rocket products, such as Rocket FBS Kits continue to be available only from Rocket Medical.

We would like to thank all of our loyal MityVac users for their custom over the years and look forward to supplying them with our own, UK manufactured, Rocket Medical obstetric products in the future.

Kind Regards

Yvette Lovett
Customer Service Manager
Rocket Medical plc.
