## Rocket Craft™ DUO-VAC & Craft™ Suction Pumps – gauge upgrade

### Dear Customer,

In-line with our policy of continuous improvement, we have upgraded the vacuum gauge on all Rocket Craft™ DUO-VAC and Craft™ Suction Pumps with effect from **1<sup>st</sup> January 2015**. The changes include a larger and more accurate gauge to improve the quality of vacuum control and the ease of visibility.

These will be introduced as stocks of existing pumps are exhausted and replaced by later production.

As this upgrade cannot be made retrospectively, we are retaining a stock of the previous gauges and back plates to service current models.
