Rocket Bandit™ Haemorrhoid Ligators: Handle Colour Change

Dear Customer,

Following the acquisition of NuSurgix Ltd in January of 2014, Rocket Medical plc have merged their colorectal products into the Rocket portfolio under the Rocket brand name.

We also supply the Bandit™ haemorrhoid ligator under an own label manufacturing agreement to Pennine.

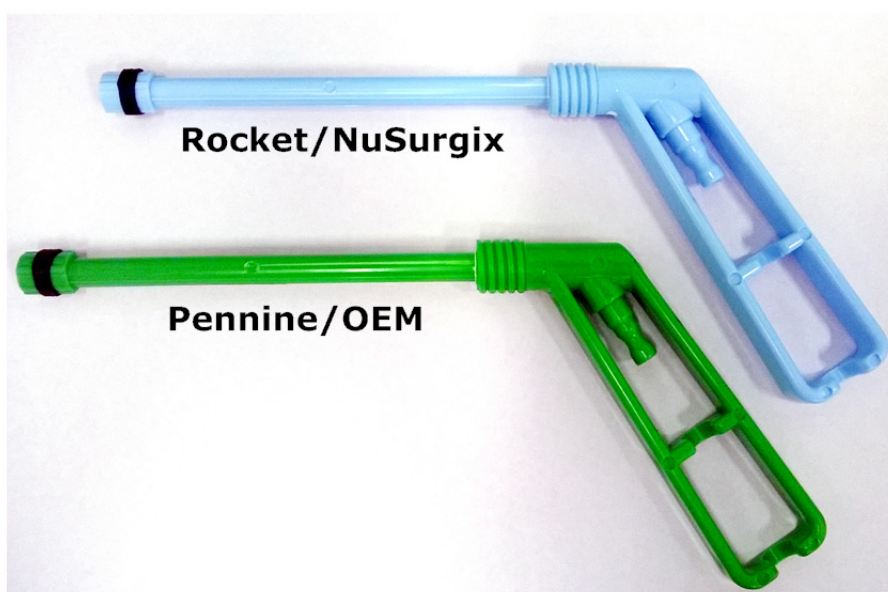

To avoid confusion between the two products in market, we have divided the two distribution routes by colour:

- **Blue:** Rocket Medical
- **Green:** Pennine/OEM

Those customers previously receiving the R53703/7003 **Green** handled Bandit™ from Rocket/NuSurgix fitted with 'latex free' bands will now receive the product with a **Blue** handle - *fitted with the same bands*.

NuSurgix Ltd previously labelled their 7003 Bandit™ ligator as 'Latex Free'.

However, these bands are more correctly labelled as hypoallergenic and Rocket Medical now uses that description on the packs.

IMPORTANT:

The haemorrhoid bands remain exactly as previously supplied by NuSurgix/Rocket. Only the handle colour and label description have been changed for this product.

Customer Information Bulletins on all of our products can be found on our web site at:
