

CUSTOMER INFORMATION BULLETIN

Acquisition of NuSurgix Ltd

Dear Customer,

Rocket Medical plc are delighted to announce that with effect from Tuesday 21st January 2014 the company has acquired **NuSurgix Limited**, Consett, County Durham. UK

Rocket Medical are the global market leader in Fetal Scalp Blood Sampling and have, over nearly 20 years, developed an enviable reputation for high quality, analyser specific sampling kits.

The acquisition of NuSurgix Ltd adds a generic option for specific global markets to their already extensive FBS kit portfolio.

Furthermore, the acquisition of NuSurgix, also provides Rocket Medical with an important addition to its existing colorectal products – The Pro-Lux range.

These innovative products, in conjunction with disposable sigmoidoscopes from partners Welch Allyn, add a market leading range of self-illuminating sigmoidoscopes and proctoscopes for outpatient and clinic use.

Rocket Medical plc will be retaining the NuSurgix brand name and its current manufacturing facilities along with the production and administrative staff who become part of the Rocket Medical family.

We will be working hard to make the transition from NuSurgix to Rocket Medical as seamless as possible in the coming weeks.

Ordering of NuSurgix products is scheduled to be transferred to Rocket Medical Customer Services by 1st March 2014 and customers will receive further advice by letter and email as the transition proceeds.
