

PRODUCT DISCONTINUATION**Dear Customer,**

We added the Perfguard™ Uterine Manipulator to our product portfolio following the acquisition of NuSurgix Ltd in January 2014.

However, following a detailed production and design review of the manufacturing tooling for the:

R57440 Rocket Perfguard™ Disposable Uterine Manipulator

we have concluded that they are now beyond economic repair and restoration.

As a result we are reluctantly compelled to discontinue supply of the product.

We have component stock for approximately 6 months sales at current levels. However, once these are exhausted we will be unable to continue to supply the product.

Rocket Medical apologises for the inconvenience this may cause and are hopeful that given the period of notice, you have time to find an alternative supplier.

For Rocket Medical plc.

Yvette Lovett
Customer Services Manager.
