

PRODUCT DISCONTINUATION**R57683 & R57684 Rocket[®] Sialography Catheters****Dear Customer,**

Following a detailed review of the manufacturing process for **R57683 & R57684 Rocket[®] Sialography Catheters** we have reluctantly concluded that there are irresolvable production and quality issues which could, in rare circumstances, affect product safety.

As a result we are compelled to discontinue supply of the product with immediate effect.

This is not a decision we have taken lightly as we are fully aware that our customers have relied on this design of catheter for many years and that there are limited options for alternatives.

Unfortunately, with the discontinuation of these two codes, Rocket Medical has now ceased production of sialography catheters

We sincerely apologise for the inconvenience this discontinuation may cause.

For Rocket Medical plc.

Yvette Martin
Customer Services Manager.
