Rocket® BLUE™ Multipurpose Needle Drains & Ward Procedure Packs offer a purpose designed, cost-effective solution for routine fluid drainage procedures in department or ward settings.

Indications:
For the drainage of body fluids including ascites, urine and pleural fluid.

For insertion, but not restricted to, the abdominal cavity, chest and urinary bladder using a ‘direct stab’ technique combined with aspiration and/or ultrasound guidance.

- CE MARKED, PURPOSE DESIGNED DEVICE, designed specifically for paracentesis and drainage of abdominal ascites, urinary bladder and other drainage applications which avoids the risks of inappropriate use of non-specific devices such as generic suprapubic drains.

- RETRACTABLE SAFETY SCALPEL included in each pack to ensure recommended application a skin nick prior to insertion.

- DRAINAGE BAG CONNECTION SET included to reduce additional costs and make insertion and connection to a wide range of drainage options quick and secure.

- SOFT, KINK FREE 6FG catheter material, improves patient comfort and prevents unnecessary catheter blockage caused by thin walled materials.

- 1CM CATHETER MARKINGS to aid safer, controlled insertion.

- SOFT INTEGRAL STITCH PLATE combined with flexible tube support, provides simple, secure fixation after insertion.

- REMOVABLE NEEDLE CAP permits aspiration to aid correct placement during insertion.
