Rocket® Spinal Manometers have been providing safe, reliable, cost effective CSF pressure measurement for over 30 years.

The unique ‘stackable’ design, original to Rocket, has become a standard neurological diagnostic tool and can be found in Emergency Departments, Neurological, Medical Wards and specialist Neurosurgery centres throughout the world.

This original Rocket® design is now available with ISO80369-6™ compliant connectors.

ROCKET® SPINAL MANOMETERS with NRFit™ connectors throughout the intrathecal fluid path to ensure connection to ISO80369-6 compliant spinal needles and syringes.

STACKABLE ASSEMBLY: NRFit™ Male/female fittings of each tube permit additional sections to be stacked to allow pressures >40cmH₂O to be measured when required.

CLEAR, STURDY PLASTIC CONSTRUCTION for reliable, secure assembly and ease of use.

SUPPLIED COMPLETE with 3 way stopcock for attachment to all NRFit™ISO80369-6 compliant spinal needles and syringes.

READY FOR IMMEDIATE USE for when time is precious.
