

Rocket Multipurpose Needle Drain Sets

- ◆ **CE MARKED, PURPOSE DESIGNED DEVICE**, designed specifically for paracentesis and drainage of abdominal ascites, urinary bladder and other drainage applications which avoids the risks of inappropriate use of non-specific devices such as generic suprapubic drains.
- ◆ **SOFT, KINK FREE 8FG** catheter material, improves patient comfort and prevents unnecessary catheter blockage caused by thin walled materials.
- ◆ **SOFT INTEGRAL STITCH PLATE** combined with flexible tube support, provides simple, secure fixation after insertion.
- ◆ **EasyTip™ CORE** combined with a long taper tip helps prevent 'ruckle-back' and reduce resistance during insertion, so minimising discomfort and easing correct placement.
- ◆ **SAFETY SCALPEL** included as standard to aid compliance with COUNCIL DIRECTIVE 2010/32/EU
- ◆ **REMOVABLE NEEDLE CAP** permits aspiration to aid correct placement during insertion.
- ◆ **DRAINAGE BAG CONNECTION SET** included to reduce additional costs and make insertion and connection to a wide range of drainage options quick and secure.

Rocket® Multipurpose Needle Drains & Ward Procedure Packs offer a purpose designed, cost-effective solution for routine fluid drainage procedures in department or ward settings.

Indications:

For the drainage of body fluids including ascites, urine and pleural fluid.

For insertion into, but not restricted to, the abdominal cavity, chest and urinary bladder using a 'direct stab' technique combined with aspiration and/or ultrasound guidance.
