Rocket Medical® Thoracentesis Kits

Dear Customer,

The supplier of the drainage bag used in the Thoracentesis Kits has withdrawn supply. We are working to rectify this problem as quickly as possible, sourcing new suppliers and validating the new component.

Rocket Medical have taken the decision to supply R51551 and R51551-08-00 without a drainage bag until we can resume normal supply.

We have added a connector to the kits that will allow attachment of a drainage bag that has a stepped connector if a luer lock version is not available.

If you have any questions, please contact the Customer Services Team for assistance:
