

Rocket[®] Surgi-Hook[™] Discontinuation

Dear Customer,

Following a review of our labour ward range, we have taken the decision to discontinue manufacture of the Rocket[®] Surgi-Hook[™] with immediate effect. We sincerely apologise for any inconvenience that this may cause.

The following product code is affected:

Stock code	Description
R57066	Rocket [®] Surgi-Hook [™] , straight, 26cm

The recommended alternative for this product is the Rocket[®] Amniotomy Hook:

Stock code	Description
R57065	Rocket [®] Amniotomy Hook, curved, 25cm

Whilst the Rocket Surgi-Hook[™] is straight in shape, the Rocket[®] Amniotomy Hook is curved, to follow the shape of the anatomy. The hook faces away from the direction of insertion, to protect against accidental tear.

In addition, we offer a range of standalone plastic capillaries and FBS Kits with plastic capillaries, for a range of analysers. For further information please visit our website www.rocketmedical.com

If you have any questions please contact your local distribution partner or our Customer Services Team for assistance:
