

Change to Product Code R57016-PLUS-NS

Dear Customer,

Due to component availability, we have made the decision to remove the forceps from product code R57016-PLUS-NS - the long (200mm) version of our fetal blood sampling amnioscope. This product has been unavailable for purchase for several months and this modification allows us to return the product to the market.

Customers must source alternative forceps to use with this product, considering the length of the amnioscope and size of the aperture. We apologise for any inconvenience caused.

R57016-PLUS-NS: Amnioscope and Amnilume™ Light Source
