

- **READY TO USE:** self-contained battery powered light source with high intensity white light LED for maximum illumination.
- **NO EXTERNAL LIGHT SOURCE** required for speed, simplicity and cost effective diagnosis and treatment.
- **COMPLETE SET** supplied with a disposable obturator.
- **20mm INTERNAL DIAMETER** for clear, precise vision and easy application of instrumentation. Ideal for Colorectal Outpatient or GP clinic use.
- **SAFETY:** Should local hospital policy require it, the battery pack is fully removable to permit safe, environmentally responsible disposal.

Each carton is supplied with a battery storage tray to ensure safe separation of used battery cells in conformance with COUNCIL DIRECTIVE 2006/66/EC (as amended) with regards to EU battery disposal regulations.
